The Immunization and Health Report is due 3 weeks prior to the start of classes. Students that fail to complete the requirements may incur a $2000 non-refundable fine, a hold on registration and/or a conduct referral. In addition, residential students may not be allowed to move into their residence at the college until this record is received. Lastly, New York State law requires the college to de-register all students who are not in compliance with this regulation, and they will be unable to attend classes.

1. Immunization Requirements - minimum NYS requirements include:
   a. 2 MMR (measles, mumps, rubella) vaccines
   b. 1 meningitis ACWY vaccines (Menactra or Menevo) within the last 5 years or 2 meningitis B vaccines (Bexsero or Trumenba) or sign the attached waiver.
2. Tuberculosis Screening.
3. Physical Exam – recent physical (last high school physical meets this requirement).
4. Health Insurance – the College does not require students to carry a health insurance policy, but we highly recommend that each student have health insurance coverage in order to avoid costly medical expenses while in college. If you are currently uninsured, information about the NY Health Plan Marketplace can be found at https://info.nystateofhealth.ny.gov/ or by calling at 315-989-2511, or on our webpage www.lemoyne.edu/wellness

Congratulations and welcome to Le Moyne College! Additional information can be found on our webpage www.lemoyne.edu/wellness. If you have any questions regarding this information please email us at healthservices@lemoyne.edu.

The packet can be mailed to:
Le Moyne College – Health Center

Health History Requirements
As a new student, you must submit this completed Immunization and Health History form upon admission to the college. This form is the foundation of your medical record at Le Moyne College. This record is reviewed by The Wellness Center for Health and Counseling, and if necessary referred to the College physician for evaluation. It is then filed for reference to be used whenever a consultation for illness or a conference for health appraisal takes place. All information is confidential and will be used only by the Wellness Center for Health and Counseling. You have been accepted to the college, and information you provide on this form will not be used in any way to influence your status at Le Moyne College. It is important that you fully disclose all health and mental health conditions.

The Immunization and Health Report is due 3 weeks prior to the start of classes. Students that fail to complete the requirements may incur a $2000 non-refundable fine, a hold on registration and/or a conduct referral. In addition, residential students may not be allowed to move into their residence at the college until this record is received. Lastly, New York State law requires the college to de-register all students who are not in compliance with this regulation, and they will be unable to attend classes.

Confidentiality Note: The information contained on this form is privileged and confidential and may not be copied or distributed without written permission of the student.
New York State requires that you be informed about meningococcal disease and why it is dangerous. Briefly, it is a bacterial infection that is potentially life-threatening. It often begins with symptoms that can be mistaken for flu, but unlike more common infections it can get worse very rapidly and can cause death in as little as 24 – 48 hours. It can also cause permanent disabilities such as amputations, scarring, hearing loss and brain damage. It is spread from person to person by droplets that are released by coughing or sharing eating utensils, or kissing. While anyone can get this disease, college students living in residence halls are at modestly increased risk for meningitis and may wish to consider vaccination. While the vaccine does not eliminate the risk of meningococcal disease, it is very effective in protecting against 4 of the strains of bacteria including the strain most commonly found on college campuses. More information including our meningitis policy is found on Le Moyne College Student Health Website (www.lemoyne.edu), and can also be found at the CDC website (cdc.gov) and the American College Health Association website (acha.org). You also can speak with your physician regarding this important decision.

New York State Public Health Law requires that all college students have either:

1 dose of meningitis ACWY vaccine within the last 5 years OR
2 meningitis B vaccines OR
decline the vaccine by signing this waiver.

Students that decline the vaccine must complete this form and return it to Le Moyne College Health Services 3 weeks before the start of class. Students may be held out of class and will not be able to register for any further classes until compliance is achieved.

Check the statement and sign below.

I have or my son/daughter<18 has:

___ read, or have had explained to me, the information regarding meningococcal meningitis disease. I understand the risks of not receiving the vaccine. I have decided that I (my child) will ___ obtain immunization against meningococcal meningitis disease.

- Other  #1__/__/__  #2__/__/__

REQUIRED:

Tuberculosis Screening

1. Does the student have signs or symptoms of active tuberculosis disease? Yes____ No____ If No, proceed to 2.
   If Yes, proceed with additional evaluation to exclude active TB including Tuberculin skin testing, chest X-ray and sputum evaluation as indicated.

2. Is the student a member of a *high-risk group? Yes____ No____ If No, stop. If Yes, proceed with skin testing. A history of BCG vaccination does not preclude testing of a high-risk member.

3. Tuberculin Skin Test ( Mantoux only and within past year)
   Date given: ___________ Date read: ___________ Result (in actual mm induration) __________
   PPD manufacturer, Lot # and Expiration date: _______________________________________

4. Chest X-ray (required if tuberculin skin test is positive)
   Results: Normal ____ Abnormal ____ Treatment: _______________________________________

*Categories of high risk students include those students who have arrived in the past 5 years from countries where TB is endemic. It is easier to identify countries of low rather than high TB prevalence. Therefore, students should undergo TB screening if they have arrived from countries EXCEPT those on the following list: Canada, Jamaica, St. Kitts, and Nevis, Saint Lucia, Virgin Islands USA, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Iceland, Italy, Liechtenstein, Luxembourg, Malta, Monaco, Netherlands, Norway, San Marino, Sweden, Switzerland, United Kingdom, American Samoa, Australia, or New Zealand. Other categories of high-risk congregate settings such as prisons, nursing homes, hospitals, residential facilities for patients with AIDS, or homeless shelters: and those who have clinical conditions such as diabetes, chronic renal failure, leukemia’s, or lymphomas, low body weight, gastrectomy and jejunoileal by pass, chronic malabsorption syndromes, prolonged corticosteroid therapy (e.g. prednisone>15mg/day for >1 month) or other immunosuppressive disorders.
