

## **Special Instructions - Class of 2020**

For its commencement ceremonies, Le Moyne College will utilize the NAVICA app to facilitate rapid antigen testing and results reporting for students, faculty and staff. Prior to arriving on campus, please download the NAVICA app from the [App Store](#) [Apple devices] and the [Google Play Store](#) [Android devices] and set up your account. Please see below for additional information about the app.

### **What is the NAVICA App?**

This is a new app that Abbott designed to pair with our BinaxNOW rapid antigen test for COVID-19. The app works on iPhone and Android devices and allows people to store, access and display their BinaxNOW test results so we can more confidently return to life.

### **How Does the App Work?**

When you get Abbott's BinaxNOW test at a NAVICA-enabled test center, the results can be displayed on your NAVICA app. These results are encrypted and available only to you and those whom you choose to share them with.

If you test negative, the app will display a temporary encrypted digital pass with a QR code, similar to an airline boarding pass. The pass will be renewed each time a person takes a new test and receives a negative test result and will include the date of the latest test result. Organizations will be able to view and verify the information on a mobile device to facilitate entry into facilities along with hand-washing, social distancing, enhanced cleaning and mask-wearing. If you test positive, you'll receive a message in the app to quarantine and communicate with the COVID Office.

### **How is Abbott Protecting the Security of Personal Information?**

Maintaining customers' privacy is always a priority for Abbott. When it comes to the NAVICA app, the data transmitted are encrypted. And users only share their first and last name, email address, phone number, zip code, and date of birth, which limits the sensitive identifying data being shared in the first place. Additionally, the app isn't used for contact tracing, so personal location information is not being tracked or shared.

### **Want to Know More?**

### **#CampusClear Screening App**

The College is utilizing the health screening app - #CampusClear - to facilitate health screening of students, faculty and staff for its commencement ceremonies. All those with a [lemoyne.edu](#) email address who will be physically present on campus for commencement will be required to utilize #CampusClear.

For more information and instructions on how to download #CampusClear, please visit the [health screening section](#) of the COVID website.
