PREAMBLE

We, the students of Le Moyne College, in recognition of the responsibility shared by the administration, faculty, and student body, hereby constitute the Le Moyne College Student Government Association. The Student Government Association is the formally recognized representative body for all students enrolled at Le Moyne College. The Student Government Association ensures formal student input into the college’s policy-making process under the leadership of an Executive Board, which is composed of a President, a Vice President of Mental Health and Well-Being, a Vice President of Finance, a Vice President of Administration, and a Vice President of Club Development, all of whom are elected at large by the student body.

Sister organizations that operate alongside the Student Government Association include the Le Moyne Student Programming Board, the Commuter Student Organization, the Residence Hall Association, and Organizational. Each organization is co-equal, has separate jurisdictions, and simultaneously work together to improve student life.

The Student Government Association houses standing committees and ad hoc committees. Committees carry over from term to term unless otherwise disestablished. These committees include the Club Development and Audit Committee, the Constitution Committee, the Student Affairs Committee, the Communication Committee, the Organizational Finance and Review Committee, and the Elections Committee. Ad hoc committees are created at the start of each term with the approval of the Vice President of Mental Health and Well-Being. Ad hoc committees responsible to the Student Government Association include the Spirit Committee, the Communication Committee, and any other committees the Board deems important for a particular term.

The Student Government Association assumes responsibility for student-life policy legislation. SGA must be consulted on or is responsible for initiating student-life legislation, judicial procedures, residence hall policy, and the selection of candidates for many administrative offices.

The Student Government Association is also responsible for naming members of the Student Government Association to serve on any college committee for which student representation has been established. Moreover, students are encouraged to become active in, or at least become familiar with, the operations of the Student Government Association.

Article XIII — ARTICLES OF LEGISLATION

Section 1  Articles of legislation comprise codes of conduct or minor procedure that bind all applicable student members of the Student Government Association that all members of SGA are bound to follow. The application of the terms “conduct” and “minor procedure” to proposed legislation must be determined by members of the Executive Board in good faith prior to any vote on said legislation by the Executive Board. Approval of some article of legislation may be initiated by any student member of SGA by oral or written request to the President or Vice President of Administration. Any article of legislation proposed to or by a member of the Executive Board must be considered during the next meeting of the Executive Board. Articles of legislation may be approved only by at least a four of five (%) majority of the Executive Board and then by a majority of the current membership of the General Board excluding all members of the Executive Board. Upon approval by SGA, an article of legislation shall immediately be enacted according to Section 2 of this article.

Section 2  Approved articles of legislation are enacted as appendices of the most recent approved revision of the Constitution and Bylaws of the Student Government Association. Appendices may only bind current student members of SGA in conduct or minor procedure and as such do not require approval.
of any part of the Le Moyne College student body. Approved articles of legislation remain as appendices of the Constitution and Bylaws of the Student Government Association unless successfully revoked by SGA.

Section 3  Enacted articles of legislation may be revoked by SGA and removed from the Constitution and Bylaws of the Student Government Association. Revocation of an article of legislation may be initiated by any student member of SGA by oral or written request to the President or Vice President of Administration. The revocation of any article of legislation proposed to or by a member of the Executive Board must be considered during the next meeting of the Executive Board. Articles of legislation may be revoked only by at least a three of five (%) majority of the Executive Board and then by a majority of the current membership of the General Board excluding all members of the Executive Board. Upon revocation by SGA, an article of legislation shall immediately be removed by deletion of the appendix in which the article of legislation is recorded.

Article XIV — JESUIT STUDENT GOVERNMENT ALLIANCE

Section 1  The Le Moyne College Student Government Association, as a founding member of the Jesuit Student Government Alliance, seeks to assist the Jesuit Student Government Alliance in policy making and in its mission for advocacy.

Section 2  The Student Government Association shall send at least one representative each year to the National Jesuit Student Leader Conference per the Jesuit Student Government Alliance Constitution. This duty shall fall to the President, and if they cannot attend, it shall fall in accordance to the succession order of the President’s duties as described in Article IX of the Constitution. If a member of the Executive Board must attend as a result of the President’s lack of attendance, the President shall provide a copy of the Constitution of the Jesuit Student Government Alliance. The President shall also, per the Jesuit Student Government Alliance Constitution, meet with the representative about the policies that will be discussed, and shall advise the representative on issues to bring forth to the general body of the Jesuit Student Government Alliance.

Section 3  The representative from the Student Government Association, whether it be the President or another Executive Board member, shall have the authority to represent the Student Government Association. However, in the case of supporting an initiative or a statement, the representative will not vote. Instead, the representative will return to the Student Government Association at the next general meeting to report on the initiative. With the majority approval of the General Board, the President or another Executive Board member shall submit the approval of the Student Government Association to the chair of the Jesuit Student Government Alliance.

Section 4  If the Student Government Association wants to address a certain issue to the Jesuit Student Government Alliance, the Student Government Association shall approach the President of Student Government, who shall address the issue to either the regional chair of the Northeast division, or shall address it to the general body of the Jesuit Student Government Alliance.

Section 5  If the Jesuit Student Government Alliance signs a letter to the student bodies of their colleges, it is the responsibility of the President of the Student Government Association to distribute the letter to the student body within twenty-four (24) hours of the closing ceremony of the conference.

Section 6  At the closing of the conference, the representative shall draft a conference summary to
the Executive Board of the Student Government Association. At the first meeting of the Student
Government Association after the meeting of the Jesuit Student Government Alliance, the representative
shall inform the Student Government Association of the main ideas from the conference, as well as any
suggestions for members going forward.
BYLAWS

Article I — ELECTIONS PROCEDURE

Nominations

Section 1  Nomination procedures of the Student Government Association elections must adhere to the following guidelines:

a. With the exception of candidates for certain positions on the General Board as described in the duties of a position, candidates nominate themselves for the position they wish to run for. Candidates can only run for one position at a time on the Student Government Association, Le Moyne Student Programming Board, Resident Hall Association, and Commuter Student Organization Executive Boards;

b. Candidates must meet all of the requirements of the organization in which they are seeking office;

c. The positions of President, Vice President of Mental Health and Well-Being, Vice President of Finance, Vice President of Administration, Vice President of Mental Health and Well-Being, and the Vice President of Club Development require a minimum of one-year experience serving on the Student Government Association. Candidates running for Vice President of Finance are excluded from this requirement if they have served at least one year on the Organizational Finance and Review Committee;

d. Candidates will register to run for election by turning in an election contract to Campus Life and Leadership at the time and date designated by the Elections Committee;

e. Candidates must sign an election contract in order to be placed on the ballot. This form outlines the responsibilities and expectations of the Student Government Association, to which the candidate must agree to commit to if elected. The contract includes a waiver allowing the Office of Student Development to determine if the candidate meets the minimum academic standard. All students running for positions must be in good academic standing and have a cumulative GPA of 2.50. This must be signed and returned to Campus Life and Leadership Office before the close of nominations for the office being sought. The Elections Committee shall have no direct access to the candidate’s GPA;

f. The nominations period shall be determined and enforced by the Elections Committee;

g. Only those candidates who meet the above requirements and have been nominated according to the above procedure shall be recognized as official candidates and shall be notified by the Director of Campus Life and Leadership or the moderator of the Student Government Association;

h. The period between elections, held in April, and the end of the term in May will be a shadowing period, where newly inducted members will shadow current members to train for their upcoming terms. This period will be used to ask questions and learn all the necessary information for each position. The newly inducted board will be required to attend all meetings for their corresponding position from the time they are elected until the end of their term;

i. The final meeting of the academic year will be the first meeting that will be run by the newly elected Student Government Association Board under the oversight of the outgoing Student Government Association Board.

Insufficient Candidates

Section 2  If at the end of nominations:
a. If an Executive Board position remains open due to a lack of eligible candidates for that position, the position will become open to any student who meets the basic requirements for election to the Student Government Association, with the approval of the Elections Committee;
b. If a standing committee chair, cabinet, or class representative position is not filled, the new Student Government Association Constitution Committee may recruit and appoint a person to the vacant position with the approval of the Executive Board and majority approval of the entire Student Government Association. This decision should be made before the end of the spring semester by the new Student Government Association.

Campaigning

Section 3 All campaigning for Student Government Association offices must adhere to the following guidelines:

a. The official campaign shall begin once a candidate has submitted their campaign contract to the Campus Life and Leadership Office and shall end before midnight on the day before the election. There shall be no open tabling or formal campaigning on Election Day. All campaign posters and publicity must be removed by 4 p.m. on the day following the election;
b. A copy of the Student Government Association Constitution and Bylaws will be made available to all candidates running for a Student Government Association office;
c. All election regulations and procedures must be strictly adhered to by all candidates. Violations of the above may result in nullification of the violator’s candidacy by the Elections Committee;
d. All candidates will receive a campaign fund allotment of $10.00 from Campus Life and Leadership. The candidate must submit any campaign-related receipts to the Campus Life and Leadership Office for reimbursement. No candidate may spend over $100.00 of their own funds;
e. No candidate may slander any other candidate during the campaign season for any reason. Any instance of this act will result in immediate disqualification of the candidate by the Elections Committee;
f. No member of SGA can participate in the endorsement of any candidate for election to SGA. This bylaw bars endorsement by candidates and non-campaigning members of SGA, including graduating members of the organization. Graduating members found in violation of this bylaw will be subject to the repercussions deemed appropriate by Campus Life and Leadership.

Polling

Section 4 All polling and voting for Student Government Association offices must adhere to the following guidelines:

a. Polling shall be held on two (2) subsequent dates in April of a given election year as determined by the Elections Committee. Polling for all positions in the Executive Board shall be held at least one day prior to polling for all other positions in the General Board as determined by the Elections Committee.
b. All voting shall be done electronically; however, Student Government Association voting stations may be set up for use during elections. Balloting times and locations on Election Day shall be determined and publicized by the Elections Committee. Although voting shall be done electronically, paper ballots may be used at the discretion of the entire Student Government Association.
c. The polling area shall be staffed by members of the Elections Committee. Election workers cannot express their personal opinions on candidates while working the polls.
d. Candidates and their designees may not work at the polling area, nor campaign or loiter on Election Day whatsoever at the polling area (See Campaigning, Section 3). Candidates may not
work at the polling station. Polling staff must remove any campaign advertisements within 25 feet of the polling stations.

d. Due to the constant evolution of technology, any device which can be used for voting purposes is considered a polling station. The discussion of candidates should not be discussed intentionally around a student as they have their ballot open. The discussion of one's own views while another is voting can be deemed coercion by the Elections Committee with proper evidence and/or witnesses. Hearsay cannot be submitted as evidence. If a candidate is found guilty of the above, they may be disqualified as a result of the Elections Committee’s decision.

e. The Executive Board and chairpersons shall be elected by the entire student body of freshmen, sophomores, and juniors that are enrolled. Seniors do not vote with the exception of an election being held during the current term; seniors may vote in such elections. Class representatives will be elected only by the class year that they represent, and the student body can vote for as many candidates as there are class representatives. Cabinet members shall be elected according to their specific group bylaws.

f. Any violation of the above or an otherwise act of collusion, harassment, or coercion of votes will result in immediate disqualification of the offending candidate by the Elections Committee with a formal statement issuing the reason to the candidate.

Election Results

Section 5 During the general election of the Student Government Association, each candidate shall be elected by a plurality of the votes submitted by members of the student body. The exception shall be the class representatives, who shall be elected by a plurality of the votes submitted by the students of the class year which each class representative seeks to represent. When the results of the election have been determined:

a. The results for each election shall be announced to each candidate within twenty-four (24) hours after the close of the polls. The results will then be made publicly available within twenty-four (24) hours after the candidates have been informed.

b. In the event of a tie, another election between the tied candidates will be held within a week after the initial election to determine a winner.

c. All elected candidates must participate in the Student Government Association’s annual inauguration. If a candidate is unable to participate in the annual inauguration, the candidate shall be sworn in at the next general meeting of the Student Government Association.

Grievances

Section 6 Grievances against the election process may be submitted if they adhere to the following guidelines:

a. Any undergraduate student who pays the Student Activities Fee may initiate a grievance with the Chair(s) of the Elections Committee concerning the election and/or election procedure. Said grievances must be submitted in writing to the Chair of the Elections Committee within three (3) calendar days after the close of the election. All candidates running for the position in question and the whole Board of Student Government must be notified within twenty-four (24) hours of receiving the grievance.

b. The grievance shall be deliberated on and a verdict rendered by the Elections Committee within three (3) calendar days of the Elections Committee receiving it and the complainant and relevant parties shall be notified in writing of the decision.

c. The complainant may choose to remain anonymous to the Student Government Association. This must be directly stated within the grievance submitted to the chair of the Elections Committee.
The complainant cannot remain anonymous to the Elections Committee.
d. The Elections Committee shall inform the President of the Student Government Association of their decision, and the president shall then present the grievance to the Student Government Association at its next regularly scheduled meeting; by a two-thirds majority vote, the Student Government Association shall decide the grievance. The complainant shall be notified in writing of the decision of the Student Government Association.
e. If the decision on a grievance favors the complainant, the election process must be re-held within ten (10) days of the decision. If the elections under review are at the end of the spring semester, the re-elections must be held before co-curricular activities cease.

Article II — TRANSITIONING DOCUMENTS

Section 1 All outgoing class representatives, chairpersons, cabinet members, and Executive Board members are mandated to provide transitioning documents to their respective successors. These documents are to be provided by Club Transition Day in the Spring Semester. All outgoing class representatives will create one joint document for their successors. The exceptions will be for:
  a. The First-Year Class Representatives, who upon election will receive their transitioning documents from the Sophomore Class Representatives;
  b. Members who are remaining in the same position for the next term, in which case transitioning documents are not required.

Section 2 Transitioning documents can be provided in paper form or electronically as a file that is readable independent of application software, hardware, and operating system. Transitioning documents must include:
  a. Duties of the position;
  b. Updated timeline of responsibilities;
  c. Summary of the year’s activities;
  d. A list of topics of focus and suggested topics;
  e. The Constitution of the Student Government Association;
  f. A sample meeting agenda;
  g. Any other transition notes as seen fit by the outgoing representative.

Article III — PARTICIPATION POLICY

Section 1 All SGA members are expected to attend and participate in each Student Government Association meeting and function. Attendance is sufficient cause to acknowledge the member’s presence at a meeting. When a member knows they will not be in attendance, notice should be given to the Vice President of Administration at least twenty-four (24) hours in advance of the event or meeting.

Section 2 A total of one (1) unexcused absence will be allowed for each Student Government Association member per calendar year for regular meetings and one (1) unexcused absence for committee meetings. The Vice President of Administration will determine whether or not an absence can be considered as an excused absence, and this decision is under their discretion. After one absence, the representative will be given a formal warning. A second absence will be considered neglect of duty, and formal recall proceedings may commence.

Section 3 All members are expected to attend recommended events which are separate from mandatory events. Participation of one or more SGA members constitutes sufficient cause to acknowledge the Student Government Association’s presence at an event. The Vice President of
Administration reserves the right to require proof of attendance when relevant. These include events in the PAC, IEGE, Athletics, RHA, LSPB, Campus Ministry, CSO, and others. Event attendance will be recorded through a point system, with different events counting for different amounts of points. Common or annual events will have predetermined Participation Point ("point") values (see Appendix A). If a member wishes to count an event towards their requirement that does not have a predetermined point value, the Vice President of Administration reserves the discretion to determine a suitable point value for that event. Members are required to attend a total of 100 points each semester with 60 points having been completed by the halfway point in each semester. When a member is falling short of the required number of points at a certain time as deemed by the Vice President of Administration, the Vice President of Administration will give the member a formal warning. If unsatisfactory attendance continues, formal recall proceedings may commence.

Section 4  At the discretion of the Vice President of Administration, members who 1) have not previously held a position in the Student Government Association and 2) begin their term following August 31 may be awarded no more than 40 additional Participation Points. These points must be awarded in an equitable manner that takes into account the possible events and activities listed in Appendix A in which the member in question can reasonably take part.

Article IV — VACANCIES

Section 1  Any SGA member who takes a leave of absence greater than three (3) weeks in length is required to resign. This includes study abroad, medical leave, or personal time away from campus. Exceptions to this rule may be granted by majority approval of the Student Government Association General Board.

Change in Status

Section 2  No SGA member shall lose their seat due to a change in status stemming from a movement from one class year to another during the middle of an academic year.

Vacancies

Section 3  If vacancies become present on the Student Government Association, a replacement process must adhere to the following guidelines:

a. In the case of the vacancy of the office of the President, the Vice President of Mental Health and Well-Being shall assume the office of President for the remainder of the term. In this case, an election shall be held to elect a Vice President of Mental Health and Well-Being; the office of Vice President of Mental Health and Well-Being shall remain vacant until that time;

b. In the case of the vacancy of the office of the Vice President of Mental Health and Well-Being, Vice President of Finance, Vice President of Administration, or Vice President of Club Development, a member of the Student Government Association who meets all the requirements of the particular office shall be nominated by the Executive Board to temporarily fill the position until a permanent replacement is elected under the elections procedures listed in Article I of the bylaws. A majority vote by the Student Government Association shall approve the temporary replacement. They shall hold the position for the remainder of the original term;

c. In the case of a vacancy in any General Board position, the Constitution Committee shall appoint, by majority approval, any student to the position who meets the requirements of office.

Appointing a new member can be done by the means necessary determined by the Constitution Committee. Once obtaining majority approval of the Constitution Committee, the candidate must
receive Executive Board approval, followed by majority approval of the General Board of the Student Government Association. They shall hold the position for the remainder of the original term;

d. In the case of the vacancy of the entire Executive Board, the Student Government Association shall convene at its next regularly scheduled meeting time and follow the procedure outlined in the latest edition of Robert’s Rules of Order Newly Revised for convening such a leaderless body. Upon the election by the Student Government Association members present a chairperson from among their ranks, and an interim Executive Board shall be elected among the Student Government Association members who meet the requirements of the office as outlined for each position in the Student Government Association Constitution. This interim Executive Board shall serve until a permanent replacement Executive Board is elected under the election procedures listed in Article I of the bylaws. The newly elected Executive Board shall assume office immediately upon the tally of the votes;

c. If there are insufficient persons to fill the positions of Le Moyne Student Programming Board Representative, Commuter Student Organization Representative, Residence Hall Representative, Student Athletics Representative, or Visual and Performing Arts Representative, the Constitution Committee may suggest students affiliated or unaffiliated with these organizations or other students interested in the position who are judged to have the ability to properly represent these positions by submitting their resume to the chair of the Constitution Committee. Following the suggestion of the Constitution Committee, the candidate must receive Executive Board approval, followed by majority approval of the General Board of the Student Government Association.

f. In the case of the vacancy of the moderator or chaplain, any voting member of the Student Government Association may submit to the President nominees to fulfil the position of the moderator or chaplain during a designated period of no longer than fourteen (14) days as determined by the President. All nominees shall be contacted by the President following the nomination period; each nominee shall be given no more than seven (7) days to respond to the President. Following the response period, all nominees will be submitted for a majority acceptance vote by the Executive Board at the next meeting of the Executive Board. Any accepted nominees will be submitted in motion at the General Board meeting immediately following their acceptance by the Executive. The President shall call a separate motion for each accepted nominee at the next General Board meeting. The nominee who receives the greatest number of affirmative votes by student members of SGA shall immediately become the moderator of SGA.

Article V — CONDUCT

Section 1 All members of the Student Government Association must adhere to the rules, regulations, and guidelines outlined in the Student Handbook (lemoyne.edu/handbook). This includes but is not limited to underage consumption of alcohol, usage of illegal or illicit drugs, cheating or plagiarism, destruction of campus property, bias-related incidents, and Title IX violations. Members of the Student Government Association are expected to act as role models on campus and any behavior that violates the image set forth by the Association, including online presence/social media, may result in dismissal from one’s position (See Article VI of the bylaws for recall of members). If any member of the Student Government Association is charged with violating those procedures, they may be placed on temporary probation until the member in question is proven at fault. During the probationary period, the moderator of SGA and administrator charged with conduct violation has the authority to dismiss the member in question from their position in conjunction with the procedures listed in the Le Moyne College Student...
Handbook (See Article IV of the bylaws for filling vacancies).

Article VI — RECALL OF MEMBERS

Procedures

Section 1 If the Student Government Association wishes to recall a member, recall can commence with the following guidelines:

a. A formal written warning describing a member’s unsatisfactory performance will be issued to a member of the Student Government Association prior to a request for a recall. If the Student Government Association member’s conduct continues to be unsatisfactory then implementation forment proceedings may be pursued;

b. The voting members of the Student Government Association may recall Executive Board and General Board members through the following procedures:

i. Presentation of a petition bearing the signatures of fifty (50) percent of the voting members of the Student Government Association brought to the moderator of the Student Government Association; the specific reasons for the recall must be presented along with the petition. If the moderator is the member with request to be recalled, the petition will be brought to an appropriate member of the staff of the Office of Campus Life and Leadership;

ii. For constitutional offenses including, but not limited to, neglect of duty, contempt of Student Government Association and failure to discharge the duties of office, an impeachment trial shall be held before the full Student Government Association, with a Student Government Association member chosen by majority vote serving as presiding officer. All charges shall be entered, and the accused and/or counsel may present their case followed by cross examination of the two parties by the General Board. If a two-thirds majority finds a member guilty of an impeachable offense, the guilty party shall be removed from their position and an election shall be held according to Article I of the bylaws to fill the vacancy;

iii. For more serious offenses including but not limited to misappropriation of Student Government Association funds, endangering the welfare of others, and other potential civil offenses, the case and all evidence shall be turned over to the College judicial system for action. The Student Government Association and all persons involved in the case shall be bound by the Family Educational Rights and Privacy Act of 1974.

Article VII — RESIGNATIONS

Executive Board Members

Section 1 In case of resignation, members of the Executive Board shall submit their resignation in writing to the President and to the Moderator of the Student Government Association. The resignation shall then be presented to the Student Government Association General Board at its next meeting for a majority vote.

General Board Members

Section 2 In case of resignation, members of the General Board shall submit their resignation in writing to the President or Vice President of Administration. The resignation shall then be presented to the Student Government Association for vote as soon as possible, whether at its next meeting or through
formal digital vote for acceptance.

Article VIII — GOVERNANCE OF STUDENT ORGANIZATIONS

Supervision of Campus Clubs

Section 1 The Student Government Association is responsible for supervision, enforcement, and approval of all student clubs and organizations on campus.

Section 2 The Vice President of Club Development is the Student Government Association’s official administrator with all college clubs and organizations. The Vice President of Club Development will work closely with these groups to help them achieve their goals, as well as serve as point of contact for any student who wishes to form a newly recognized club or organization.

Section 3 The Organizational Finance and Review Committee is chaired by the Vice President of Finance. The Vice President of Finance is the Student Government Association’s official administrator for club and organization funding, along with any matters regarding the student activities fee. The Organizational Finance and Review Committee is responsible for all funding matters using the student activities fee as it relates to club funding. The Organizational Finance and Review Committee will review all clubs for compliance with Student Government Association and Organizational Finance and Review Committee rules and guidelines and allocate an appropriate budget.

Section 4 The Student Government Association reserves the right to recommend a financial fine be placed on clubs which fail to comply with club guidelines and requirements. These recommendations shall be submitted to the Organizational Finance and Review Committee for review.

Section 5 If a club or organization fails to comply with the Student Government Association club guidelines, the Student Government Association reserves the right to vote by two-thirds majority to make the club inactive via motion or recommendation by the Vice President of Club Development or the Vice President of Finance.

Section 6 The most updated version of club responsibilities, regulations, and club governance carries the title of Club President’s Manual and is held by the Vice President of Club Development. The Club President’s Manual is distributed to each club president at the initiation of their presidency. This officially recognized document demonstrates in detail the club governance exerted by the Student Government Association. All revisions to this document must be approved by a majority of the Club Development and Audit Committee, which then submits revisions for Executive Board majority approval, followed by majority approval of the General Board of the Student Government Association.

Article IX — CLUB ENROLLMENT PERIODS

Section 1 There will be two club enrollment periods per academic year. The first should be held at the beginning of the fall semester and the second at the beginning of the spring semester. Open enrollment periods should be approximately two weeks in length, though period length is at the discretion of the Vice President of Club Development. Once the open enrollment period has expired, all students who did not turn in documents for approval during the period must wait until the next open enrollment period for the club to be reviewed by the Student Government Association.

Section 2 Open enrollment periods should be used to seek out students who wish to create a club on
campus or reactivate an inactive club or organization. The Vice President of Club Development must hold a Club Creation informational meeting in which students will learn of the official process for starting a club, including the required documents, requirements and responsibilities of club presidents, and deadlines for materials to be submitted for review by Student Government Association.

Section 3 All club applications submitted during an open enrollment period should be voted on in a single Student Government Association meeting. That meeting should be the first full Student Government Association meeting following the conclusion of the open enrollment period. Subject to the final approval by the Vice President for Student Development, the Student Government Association is responsible for recognizing and approving all student clubs and organizations.

Section 4 Any sufficiently proposed club that is denied official club approval through the appeals process may apply for official club status during the next open enrollment period (Article X, Section 9 of the bylaws).

Article X — CLUB ACTIVATION

Section 1 All students are encouraged to create a new club or organization which specializes in a particular student interest. Le Moyne College policy encourages free discussion of issues as part of the educational process. Organized advocacy of a position violating the College’s Catholic tradition is not endorsed or funded by the college. Registration of a student club or organization by the Student Government Association is an acknowledgement that the organization has complied with registration procedures. The College will grant all rights and privileges accorded to every registered club or organization.

Section 2 There are two ways to form clubs; either a new club is created or an inactive club is reactivated. In order for a new club to be created, students must submit a petition of at least fifteen (15) students in support of the club’s formation, the New Club Application, a personal statement from the leading student advocate for the club’s formation, and a club constitution (Article X, Section 6 of the bylaws). The personal statement should detail the student’s purpose in the creation of the proposed club, and their plan if the club becomes official. The personal statement should also include all information necessary to begin running the club. Interested students must also have a moderator that is a faculty member or administrator at Le Moyne College.

Section 3 In order to reactivate a club, students must submit a petition of at least fifteen (15) interested students, a list of club officers, the Reactivating Club Application, a personal statement from the leading student advocate for the club’s formation, and a club constitution (Article X, Section 6 of the bylaws). Interested students must also have a moderator that is a faculty member or administrator at Le Moyne College. Requests for reactivation must be first submitted to the Vice President of Club Development and then will be reviewed by the Student Government Association General Board, which will vote on reactivation with the process used for New Club Applications (Article X, Section 8 of the bylaws).

Section 4 Interested students must also attend a mandatory Club Creation informational meeting with the Vice President of Club Development. At this meeting, students will learn of the official process for starting a club, the required documents and their deadlines, and the requirements and responsibilities of being a club president.
Section 5  A list of the proposed club’s founding officers, along with the name of the faculty member or administrator who will serve as the moderator, should be submitted to the Vice President of Club Development for initial review. Following the initial review, those documents shall be submitted to the Student Government Association General Board for approval. Each club should have at least a president and treasurer. Only one founding officer may serve as the official contact person to the Student Government Association and Organizational Finance and Review Committee.

Section 6  Club constitutions should describe a club’s purpose, membership, and elections procedure and should be submitted to the Vice President of Club Development for review. The Student Government Association General Board shall then examine the club constitution to ensure the club’s purpose is congruent with the goals and ideals of the college, is economically feasible, and does not overlap with the interests of other clubs or organizations on campus. The Vice President of Club Development will work with any students who are having difficulty drafting a constitution.

Section 7  Once a club’s constitution has been screened by the Student Government Association, the leading student advocate for the club will be permitted to give a presentation before the Student Government Association General Board at the discretion of the Vice President of Club Development. Any club which lacks a representative at this designated Student Government Association meeting will forfeit their right to appeal the Student Government Association’s decision if denied. Following each presentation, SGA members will be permitted to question the representative(s) of the proposed club within the time designated for the purpose by the Vice President of Club Development. The Student Government Association General Board shall then hold a closed-door discussion regarding the proposed club. The SGA General Board should hold votes during a single meeting on the approval of all clubs that have been sufficiently proposed in the preceding open enrollment period. Subject to the final approval by the Vice President for Student Development, the Student Government Association is responsible for recognizing and approving all student clubs and organizations. Upon approval by the Vice President for Student Development, the Organizational Finance and Review Committee will then work with the new club’s leadership to develop and approve funding of up to $500 for the remainder of the semester in which the club is activated.

Section 8  A sufficiently proposed club that is denied approval by the Student Government Association will be notified in writing of the reason(s) for disapproval by the Vice President of Club Development. Any club that is denied official club approval may submit a formal appeal to the Vice President of Club Development within seven (7) class days of receiving the notification of disapproval. The Executive Board of the Student Government Association will review all appeals; if approved by majority vote of the Executive Board, the appeal will be put to a vote by the Student Government Association General Board. Proposed clubs will receive written notification from the Vice President of Club Development regarding the outcome of any appeal. If an appeal is rejected by the Student Government Association, then the club may appeal to the Dean of Students. If this appeal is denied, then a final appeal may be made to the Vice President for Student Development, whose decision shall be final. The Vice President of Finance shall serve as the liaison between the club and the Organizational Finance and Review Committee. The Vice President of Club Development will be the liaison between the appealing club and the Student Government Association. However, if the organization appeals to the Vice President for Student Development, both the Vice Presidents of Finance and Club Development shall meet with a single representative from the club. The club representative shall present their case before both vice presidents.
Article XI — CLUB PRESIDENT’S MANUAL

Section 1  The Student Government Association recognizes the Club President’s Manual as an official document of the organization. This document may be reviewed and updated by the Vice President of Club Development in collaboration with the Vice President of Finance and the Club Development and Audit Committee.

Section 2  The Club President’s Manual is prepared and distributed to each new club president at Club Transition Day in April of each academic year. Each club president should use this manual to assist them in making their club successful during their club presidency.

Section 3  The Club President’s Manual shall address all matters regarding club requirements and funding—among other important topics—so that it serves as a clear and sustainable document for club presidents to refer to with any questions or curiosities surrounding their presidency.
