

## Physician Assistant

Per U.S. Federal Regulations, 34 CFR §668.14 and §668.43, the following disclosures related to the educational requirements for professional certification and licensure in New York State and other states and U.S. territories is provided.

Graduates of the Physician Assistant Program will be eligible to sit for the Physician Assistant National Certifying Exam (PANCE) that is accredited by the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA). After successful completion of this exam, the graduate will be a certified Physician's Assistant. In addition, all states require licensure to practice; however, state licenses are usually based on the results of the PANCE certification examination. Le Moyne College has designed the curriculum that when successfully completed meets the educational requirements for professional licensure in New York State. Licensure requirements specific to New York State can be found here:

<https://www.op.nysed.gov/physician-assistants>.

Licensure information regarding other states and U.S. territories and a good faith determination as to whether Le Moyne College's program meets the educational requirements of a respective state's or U.S. territories' licensure requirements are provided in the following table. States and U.S. territories may have additional requirements unrelated to educational requirements to qualify an individual for licensure certification and therefore meeting the educational requirements does not provide any guarantee that any specific state or U.S. territory will approve or deny an individual's application for licensure or certification. Students are encouraged to review licensing requirements for the state or U.S. territory where they intend to work/practice and to be aware that laws and regulations may change over time.

State/ U.S. Territory	State/U.S. Territory Website	Meets Educational Requirements
Alabama	<a href="https://www.albme.gov/">https://www.albme.gov/</a>	Yes
